
Available Training

It is the desire of the NMB to help every church reach their full potential. The NMB is now equipped to offer the following training to churches and or districts. Please contact the NMB director for more information or to schedule training.

NMB Awareness Presentation

This presentation explains the goals and purposes of the National Mission Board. It's a great way to keep your church up to date on what's happening in National Missions. This presentation also goes over the criteria for churches considering coming under the NMB.

Plan of Attack Presentation

This training is designed to help you get the most from your ministry and can be presented to an individual church or a cluster of churches. The training includes several breakout sessions to help your church develop strategy to meet your unique circumstances.

Ministry Evaluations

This is a great tool that walks the pastor and key leadership through a simple process enabling them to gain a clear picture of the current health of their ministry.

Specialized training is also available upon request.
